or care leavers)

OUR STRATEGIC DEVELOPMENT PLAN FOR GREASBY 2022-23 CHILD FRIENDLY VERSION

WHAT IS A DEVELOPMENT PLAN?

A Development Plan is an action plan which we write together to share the ways in which we want to improve.

WE ASKED YOU WHAT YOU THINK WE SHOULD IMPROVE....

Last year's targets:	We have:
Make sure you had plenty of chances to develop your independence	We looked at how we could help people in The Grove and in the house with being independent. We have helped young people in different age groups in different ways. Everyone has a file with these in.
Make sure Greasby is judged as Good or Outstanding in our next Ofsted visit.	We are waiting for a visit but people who visit us to check standards say we are achieving this.
Make sure we help older pupils with taking medication.	We have a new risk assessment policy and plans in place to help us with this.
Make sure staff are able to help you with skills to support you in Greasby.	We have trained staff up to make sure they provide the best possible support.

You SAID:

You wanted more chances to be independent.

WE:

- Looked at how key worker sessions can help you become more independent
- Used your home learning sessions, with ASDAN to support your journey

YOU
SAID...

WE
DID...

THIS YEAR WE ARE GOING TO:

Get a trampoline, as you have requested.

Help new trustees to know what they can do to support staff at Greasby in doing a great job.

Improve the way we help and support new young people who join us.

You asked..
"Can I change my keyworker?"

Yes.. you can!

Continue to make sure we are doing everything we need to against the National Minimum Standards to be a brilliant setting.
